(a) General information

The Company is a limited liability company incorporated in the Cayman Islands. The address of the Company's registered office is Clifton House, 75 Fort Street, PO Box 1350, Grand Cayman, KY1-1108, Cayman Islands. The address of the Company's principal place of business in Hong Kong is Units 2701-02, 27th Floor, Win Plaza, 9 Sheung Hei Street, San Po Kong, Kowloon, Hong Kong.

The Company is an investment holding company. The Group is principally engaged in provision of foundation works and ancillary services and construction wastes handling.

The Company's shares were listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") on 2 September 2015.

(b) Corporate reorganisation

In preparation for the listing of the Company's shares on the Main Board of the Stock Exchange, the Company underwent a corporate reorganisation (the "**Reorganisation**"). The Company was incorporated as an exempted company with limited liability in the Cayman Islands under the Companies Law of the Cayman Islands on 15 May 2015. Through the Reorganisation, as more fully explained in the paragraph headed "Corporate Reorganisation" in Appendix IV "Statutory and General Information" to the prospectus (the "**Prospectus**") in connection with the share offer of the Company's shares dated 21 August 2015, the Company became the holding company of the companies now comprising the Group on 23 July 2015.

2 BASIS OF PREPARATION

The consolidated financial statements of the Company have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Main Board of the Stock Exchange and by the Hong Kong Companies Ordinance. The consolidated financial statements have been prepared under the historical cost convention, except as otherwise stated in the accounting policies below.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements.

3 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

New and amended standards adopted by the Group

The following amendments to standards have been adopted by the Group for the first time for the financial year beginning on or after 1 April 2015:

- Amendment to HKAS 19 on contributions from employees or third parties to defined benefit plans
- Amendments from annual improvements to HKFRSs – 2010 – 2012 Cycle, on HKFRS 8, “Operating Segments”, HKAS 16, “Property, Plant and Equipment” and HKAS 38, “Intangible Assets” and HKAS 24, “Related Party Disclosures”
- Amendments from annual improvements to HKFRSs – 2011 – 2013 Cycle, on HKFRS 3, “Business Combinations”, HKFRS 13, “Fair Value Measurement” and HKAS 40, “Investment Property”

The adoption of the above new amendments of HKFRS did not have any significant impact on the consolidated financial statements.

New Hong Kong Companies Ordinance (Cap.622)

In addition, the requirements of Part 9 “Accounts and Audit” of the new Hong Kong Companies Ordinance (Cap. 622) come into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the consolidated financial statements.

New standards and interpretations not yet adopted

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 April 2015 and have not been applied in preparing these consolidated financial statements. None of these is expected to have a significant effect on the consolidated financial statements of the Group, except the following set out below:

HKFRS 9, “Financial Instruments”, addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of HKFRS 9 was issued in July 2014. It replaces the guidance in HKAS 39 that relates to the classification and measurement of financial instruments. HKFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity’s business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in HKAS 39. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. HKFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the “hedged ratio” to be the same as the one management actually use for risk management purposes.

Contemporaneous documentation is still required but is different to that currently prepared under HKAS 39. The standard is effective for accounting periods beginning on or after 1 January 2018. Early adoption is permitted. The Group is yet to assess HKAS 9's full impact.

HKFRS 15, "Revenue from Contracts with Customers" deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces HKAS 18 "Revenue" and HKAS 11 "Construction Contracts" and related interpretations. The standard is effective for annual periods beginning on or after 1 January 2018 and earlier application is permitted. The Group is assessing the impact of HKFRS 15.

HKFRS 16, "Leases" introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. It distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Subject to limited exceptions for short-term leases and low value assets, distinctions of operating and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees. However, the standard does not significantly change the accounting of lessors.

Application of HKFRS 16 will result in the Group's recognition of right-of-use assets and corresponding liabilities in respect of many of the Group's lease arrangements. These assets and liabilities are currently not required to be recognised but certain relevant information is disclosed as commitments to these financial statements. The Group is assessing the impact of HKFRS 16.

There are no other HKFRSs or HK(IFRIC) interpretations that are not yet effective that would be expected to have a material impact on the Group.

16 CONTINGENT LIABILITIES

The Group, in the ordinary course of its business, is involved in various claims, suits, investigations, and legal proceedings that arise from time to time. Although the Group does not expect that the outcome in any of these legal proceedings, individually or collectively, will have a material adverse effect on its financial position or results of operations, litigation is inherently unpredictable. Therefore, the Group could incur judgements or enter into settlements of claims that could adversely affect its operating results or cash flows in a particular period.

Pending litigations

As at 31 March 2016, there were three ongoing employees' compensation claims and two personal injury claims against the Group. As the claims are being handled by the relevant insurer's lawyer and the Directors take the view that the amount to be borne by the Group in the proceeding shall be covered by the relevant insurance policy, no provision for contingent liabilities in respect of pending litigations is necessary.

17 EVENT AFTER THE REPORTING PERIOD

The Company has conditionally agreed to place 168,000,000 new shares to not less than six placees at a price of HK\$0.5 pursuant to the terms and conditions of the placing agreement entered into between the Company and Koala Securities Limited on 10 May 2016 (the "**Placing**"). All the conditions of the Placing were fulfilled and completion of the Placing took place on 26 May 2016. The net proceeds from the Placing, after deducting the Placing commission and other expenses in connection with such Placing from the gross proceeds, is approximately HK\$81 million which is intended to be used for general working capital and/or potential investments of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group's major sources of revenue were from foundation works and ancillary services and construction wastes handling services in Hong Kong.

The Company's shares (the "Shares") were successfully listed (the "Listing") on the Main Board of Stock Exchange on 2 September 2015 (the "Listing Date") and 286,000,000 new Shares had been offered for subscription and 286,000,000 Shares for sale, at an offer price of HK\$0.25 per Share.

Foundation Works and Ancillary Services

The foundation works of the Group mainly included site formation works, excavation and lateral support ("ELS") works, piling construction, pile caps or footing construction and reinforced concrete structure works and ancillary services mainly included hoarding and demolition works and lease of machinery.

During the Review Period, revenue from this segment amounted to approximately HK\$332.1 million, approximately HK\$88.3 million more than the year ended 31 March 2015. Such growth was mainly attributable to the commencement of the newly awarded projects in Ma On Shan, Kwun Tong and Aberdeen which the Group also made some progress. During the Review Period, such projects contributed significantly to the growth of the Group's revenue in this segment and recorded revenue amounting to approximately HK\$68.2 million.

Gross profit of this segment during the Review Period was approximately HK\$61.4 million, increased approximately 4.3% as compared with approximately HK\$58.9 million for the year ended 31 March 2015. Such increase was mainly due to the commencement of the newly awarded projects in Ma On Shan, Kwun Tong and Aberdeen. Gross profit margin of this segment for the Review Period was approximately 18.5%, representing a decrease of 5.7 percentage point from approximately 24.2% for the year ended 31 March 2015. The decrease is mainly due to various design-and-build foundation and ancillary services projects with higher gross profit margin in North Point, Kwai Chung and Causeway Bay had carried out substantial work in the previous financial year.

Construction Wastes Handling Services

The Group's construction wastes handling services mainly included the management and operation of public fill reception facilities such as public fill banks and temporary construction waste sorting facilities, for construction and demolition materials.

During the Review Period, revenue from this segment amounted to approximately HK\$67.2 million, increased approximately HK\$5.6 million as compared with approximately HK\$61.6 million for the year ended 31 March 2015. Gross profit of this segment for the Review Period was approximately HK\$9.0 million, increased approximately 164.1% as compared with approximately HK\$3.4 million for the year ended 31 March 2015. Such increase was mainly due to the decrease in cost of sales. The decrease in cost of sales is mainly attributable to (i) the decrease in diesel fuel for transportation as a result of decreased average purchase price of diesel fuel; (ii) the decrease in the machinery rental after the addition of machineries and motor vehicles; and (iii) the decrease in the usage of parts and consumables for machineries and motor vehicles after the replacement of old ones. Gross profit margin of this segment for the Review Period was approximately 13.4%, representing an increase of 7.9 percentage point from approximately 5.5% for the year ended 31 March 2015. Such increase is mainly due to the decrease in cost of sales as mentioned above.

FINANCIAL REVIEW

Revenue

Revenue increased significantly by approximately 30.8% from approximately HK\$305.3 million for the year ended 31 March 2015 to approximately HK\$399.3 million for the Review Period. The growth is mainly due to the commencement of the newly awarded projects in Ma On Shan, Kwun Tong and Aberdeen during the Review Period which the Group had made some progress.

Gross profit and gross margin

Gross profit increased by approximately 13.0% from approximately HK\$62.3 million for the year ended 31 March 2015 to approximately HK\$70.4 million for the Review Period. The increase in gross profit was mainly due to the increase in business activities of the newly awarded projects mentioned above. Gross profit margin for the Review Period was approximately 17.6%, representing a decrease of 2.8 percentage points from approximately 20.4% for the year ended 31 March 2015. The decrease was mainly due to the lower gross profit margin achieved for the foundation works and ancillary services segment as a result of the carrying out of substantial works for projects located in North Point, Kwai Chung and Causeway Bay, which have a higher gross profit margin, during the year ended 31 March 2015.

Other income and net gains

Other income and net gains mainly consisted of interest income, gain or loss on the disposal of property, plant and equipment and Government grants. During the Review Period, other income and net gains amounted to approximately HK\$0.9 million (2015: HK\$6.2 million).

Administrative and other operating expenses

The administrative and other operating expenses of the Group for the Review Period amounted to approximately HK\$32.6 million, representing an increase of approximately 83.7% compared with approximately HK\$17.7 million for the year ended 31 March 2015. Such increase was mainly due to the one-off listing expenses incurred of approximately HK\$12.0 million (2015: HK\$3.8 million), increase in staff costs and charity donation during the Review Period.

Finance costs

Finance costs decreased by approximately 20.7% from approximately HK\$1.4 million for the year ended 31 March 2015 to approximately HK\$1.1 million for the Review Period, which was mainly due to the decrease in bank borrowings.

Income tax expense

Income tax expense increased by approximately 7.6% from approximately HK\$7.9 million for the year ended 31 March 2015 to approximately HK\$8.5 million for the Review Period. Such increase was mainly due to the one-off listing expenses which is not tax deductible.

Profit for the year

The Group recorded a net profit of approximately HK\$29.2 million for the Review Period, representing a decrease of 29.8% compared with approximately HK\$41.6 million for the year ended 31 March 2015. The decrease in the profit for the year was mainly due to the increase in administrative and other operating expenses as discussed above.

PROSPECTS

Affordable housing supply is expected to increase because of the continual hyperactive housing market driven by property investments and a growing population. Therefore, demand for foundation works is expected to remain high. According to the 2015 Policy Address, the private sector is expected to produce about 14,600 flats per year in the coming five years, compared with about 11,400 flats per year in the past five years. The demand for commercial buildings is also expected to remain high, given the number of newly registered companies in Hong Kong continues to grow, from about 139,530 units in 2010 to about 167,280 units in 2014. This implies the continual demand for office space and hence foundation works. According to the 2015-16 Budget Speech, the Government is budgeted to invest approximately HK\$76.3 billion on public infrastructure. The investment will cover (i) the proposal of developing a new commercial district between Hong Kong Island and Lantau Island through building an artificial island;

and (ii) the feasibility study of the six sites inside the hotel belt that near Victoria Harbour and next to the Kai Tak Cruise Terminal. As a result, with the Government's initiative, it is expected the demand for foundation works service will continue to increase in Hong Kong, providing opportunities for the growth of the foundation industry. However, the construction industry becomes more and more competitive due to the increase in the number of competitors. As such, the Group strives to develop its relationship with different customers for exploring future opportunities. The Group would continue to focus on its core businesses on foundation works and ancillary services and construction wastes handling services in Hong Kong. In order to achieve the continuing growth of its core businesses, the Group would reinforce its well-established position in the market via its reputation, expertise and experienced management.

USE OF PROCEEDS FROM THE INITIAL PUBLIC OFFERING

The net proceeds of the share offer received by the Company in relation to the Listing were approximately HK\$60.2 million, after deduction of underwriting fees and commissions and expenses. These proceeds are intended to be applied in accordance with the proposed application set out in the paragraph headed "Future plans and use of proceeds" in the prospectus of the Company in connection with the Listing dated 21 August 2015. Such uses were to acquire machinery and equipment, strengthen the workforce and manpower, repay the outstanding bank borrowings to reduce our finance costs and fund general working capital as follows:

	Planned use of proceeds	Actual use of proceeds from the Listing Date to 31 March 2016

As at 31 March 2016, the Group had cash and bank balances of approximately HK\$50.3 million (31 March 2015: approximately HK\$22.5 million). The gearing ratio of the Group as at 31 March 2016 was approximately 17.9% (as at 31 March 2015: approximately 29.8%). As a result of the increased equity following the listing of the Company, the Group's gearing ratio decreased. The Group did not carry not any hedging for its floating borrowings.

FOREIGN EXCHANGE RISK

The Group mainly operates in Hong Kong and most of the operating transactions such as revenue, expenses, monetary assets and liabilities are denominated in Hong Kong dollars. As such, the Directors are of the view that the Group's risk in foreign exchange is insignificant and that we should have sufficient resources to meet foreign exchange requirements as and if they arise. Therefore, the Group has not engaged in any derivative contracts to hedge its exposure to foreign exchange risk during the Review Period.

The Group provides adequate job training to the employees to equip them with practical knowledge and skills.
